

SCEXPERT™ Release Notes

Version: 4.12.1.1

Release date: August 28, 2024

Issues:

#	Description
1.	<p>When a message was sent to a group of mobile users, and the message was read by one of them, the other users did not receive the message.</p> <p>Now the RDT messages show for all users.</p> <p>Workstation → Warehouse Activity → Mobile Users Messages (MUM)</p>
2.	<p>The RDT message box did not support line breaks in Right To Left (RTL) languages.</p> <p>Now line breaks are supported in all RTL languages.</p>
3.	<p>Not all the RDT's Mobile User Message box elements were translatable.</p> <p>Now all message box elements are translatable.</p>
4.	<p>Additional security measures were applied to the Print Client Token screen.</p> <p>Workstation → Setup → Printers and Labels → Print Client Token (PCT)</p>
5.	<p>The Local Print Client was not able to connect to the SCEXPERT server after the Print Client Token was refreshed.</p> <p>Now the client connects successfully after the Token is refreshed.</p>
6.	<p>The Counter screen opened with no display.</p> <p>Now the Counters screen opens successfully.</p> <p>Workstation → Setup → Warehouse Administration → Counters (CTR)</p>
7.	<p>The Counter Value field was mistakenly labeled Counter Interval.</p> <p>Now the field is labeled Counter Value.</p> <p>Workstation → Setup → Warehouse Administration → Counters (CTR)</p>
8.	<p>The Multi Warehouse Queue flag is not showing in the insert mode of Message Queues tab.</p> <p>Now the Multi Warehouse Queue flag shows in the insert mode</p>
