SCExpert™ Release Notes

Version: 4.12.1.34

Release date: May 7, 2026

Issues:

#	Description
1.	When updating an Outbound Order via SCExpert Connect, if the ShipTo node contained a Contact ID, the system did not use the specified Contact ID and instead used the contact data from the Contact node. Now, when the Outbound Order includes a ShipTo node, the system correctly sets the ShipTo Contact ID.
2.	Sometimes when multiple SAP 10 SBO plugins were initialized at the same time, not all plugins manage to initialize successfully. Now, a new configuration parameter was added to allow to control the number of retries the plugin performs when trying to initialize.

Technical Appendix:

#	General
1.	Replace **ExpertObjectMapper.dll** in the Services folder.
2.	Replace **SCExpertConnectSBO10Plugin.dll** in the Services folder.

#	Database Changes
2.	Update the following SYS DB tables: **SCEXPERTCONNECTPLUGINTYPEPARAMETERS** **SCEXPERTCONNECTPLUGINPARAMS**
