
SCExpert™ Release Notes

Version: 26.1.2

Release date: August 5, 2026

Issues:

#	Description
1.	When SKU Unit of Measure (UOM) dimension fields were defined with decimal values, it was not possible to modify the SKU UOM. Now, SKU UOMs with decimal dimension values can be edited successfully.

Technical Appendix: New Installation

If this is your first installation of **SCExpert version 26.1.2**, follow the steps below:

1. Download the installation package from the Partners Portal.
2. Extract the package to a local machine.
3. Navigate to:
SCExpert_26.1.2_installer/Documentation
4. Follow the instructions in the Installation.pdf document.

Upgrade Instructions

If **SCExpert version 26.1.1** is already installed and you want to upgrade to version **26.1.2**, perform the following steps.

Pre upgrade steps:

1. Backup the SCExpert database.
2. Backup the SCExpert root folder.
3. Download the installation package from the Partners Portal.
4. Extract the package to a local machine.

Upgrade Steps:

1. Stop all SCExpert services.
2. Stop the IIS.
3. Uninstall SCExpert version 26.1.1

Note! You will need to approve all warning messages.
